

## AIRTEC Pneumatic Cylinders for *EXTREME* Conditions

---

### Available in the following configurations

- **XLC** For Temperatures down to -40 C (-40 F)
- **XLCD** For Temperatures down to -40 C and Ice Scraper
- **XLH** For Temperatures up to 150 C (+ 302 F)
- **XLD** Heavy Duty Scraper to remove Sugar, Dirt, Metal Chips, and just about anything else from the piston rod

---

### Technical Data:

- Stroke Length: up to 2800 mm
- Piston Diameter: 32,40,50, 63, 80 and 125 mm
- Operating Pressure 1 to 10 bar (14.5 to 145 psi)

---

**Company Background** AIRTEC Pneumatic GmbH has been developing, manufacturing and distributing innovative pneumatic components for more than 35 years. Today, the company holds an internationally esteemed position in pneumatics, serving manufacturers in a variety of industry branches from leisure industry to robotics and space technology. The product portfolio covers a wide selection of pneumatic parts: different cylinder and valve series including terminals with multipol and bus interfaces, vacuum technology-based devices as well as ex-protected components and drilling units. Additionally, AIRTEC offers customized special solutions. An international distribution and service network ensures prompt and reliable support for customers around the world.
